"Five Stars:

Mary Chieppa is a phenomenal professor and truly cares. Her school, Plan2Pass is well organized and education is their top priority. The broker's course material is quite extensive and there is a lot to comprehend, however, Mary and her staff break this down into manageable bits. Additionally, to taking the course Mary had all of the required CE approved within the material. When it came time for us to take our physical tests, Mary made sure everyone had close accommodations, for all of the students scattered about the state. Being Mary's first student to pass the Maryland Broker License requirements by passing the State & National exam; I can state I wouldn't take the course with anyone, but Plan2Pass."
M. Fitzgerald, Associate Broker, CEO

I was fortunate enough to take the broker course online from Plan2Pass. This was an excellent opportunity that they provide on Zoom, otherwise I would not have been able to take it. Mary's team are great teachers and really care about their students. I was thoroughly prepared for the PSI and passed my first time. If you are thinking about being a broker, I highly recommend Mary and Plan2Pass.
B. Francis, Owner Re/Max Solutions

"Alison's language use is exceptional. Excellent organizational skills.....she has mastered the skill of reinforcing in a positive manner and her attempts to involve everyone in discussions. All good stuff, an excellent teacher." J.I. Thompson, Realtor

"I recently completed the Real Estate Broker Course with Plan2Pass. The curriculum, course content, and delivery method exceeded my expectations and resulted in my passing the state Broker licensing exam. Mary Chieppa and her exceptional staff of instructors made a challenging subject matter, easy to comprehend and retain. Mary and the other instructors are extremely knowledgeable in their respective subject matter areas. The extensive review sessions offered also contributed to my success. I highly recommend Plan2Pass for anyone interested in obtaining a real estate sales or broker license."
K. Gilbert-Smith, Associate Broker

Brenda Kasuva is the BEST technology instructor. In a class full of agents, each with different comfort levels, she effectively teaches so that we are on the same page. She does a phenomenal job of meeting you where you are by teaching to each learning style.
Annette Beale, ABR, AHWD, PSA, SRES

"Over the course of my 30 years in real estate I've taken many classes and courses but none so rewarding as the broker course taught by Mary Chieppa. Mary is an excellent teacher and has a method of teaching that really helps you to recall the material when testing. Her many tips and tricks to studying and test taking were most helpful and appreciated. I would highly recommend Mary and any class she teaches." R. Spalt, Associate Broker

"Considering taking the Broker's Course is a daunting task, especially while trying to maintain regular business. The wonderfulness about Mary Chieppa and her team is that she makes taking the Broker's Class manageable and knows the challenges we as agents face. Every class offered current issues with great insight and helpful hints. Mary offered great study guides." S. Stevens, Real Estate Consultant

I've taken classes in the past simply because Mary was teaching them! Most recently I've taken was the Broker Course via Zoom and passed the PSI on the 1st attempt. She was very straightforward about expectations and held all accountable. Mary is a top-notch instructor and I look forward to more from her in the future! D. Gartner, Associate Broker

I took the real estate exam on April 27th and PASSED!!! Both instructors are great and go to great lengths to make sure you are equipped with the tools you need to pass. I was able to attend class after work, twice a week, which was very convenient. Thank you Plan2pass 😊

I just passed the 60-hr Pre-Licensing Course with Plan2Pass. Let's just say that Mary Chieppa and this course made a world of a difference. Prior to enrolling at Plan2Pass, I had to drop out of a different course after only the second class because the instructor was terrible. He literally just said highlight everything on the page because that will be on the exam but did not explain anything. Plan2Pass was a breath of fresh air. I appreciate Mary's patience with students and how she explained and even re-explained things. The class was very interactive and Mary used real life examples/stories to teach the concepts. This course really gave me a strong foundation in real estate and I'm excited about what the future holds. I definitely recommend Plan2Pass for anyone who needs to take any real estate classes.

I've been in real estate since I was 18 doing different things. (Property maintenance, property management, loan officer, etc.) I really underestimated the difficulty of this course/test. If it wasn't for Mary, Christy and her team, I don't think I would've ever passed my pre-licensing class/test. They will do whatever it takes for you to get through it. Even through the Covid pandemic, they did everything they could to keep us moving along and to make sure we were retaining the information. I can't thank Mary and Christy enough. I would highly recommend them. Thank you!!!

When I decided to take the Real Estate class, I wanted to start as soon as possible. Although I was hoping to take it closer to my home (Solomons area), the soonest class offered was in Waldorf at Coldwell Banker. Well, I can't stress enough how much of a blessing this ended up being for me. Mary and Susan are excellent, top notch RE Instructors. They have many years of experience in Real Estate, as well as in teaching RE. Those who take the RE class know, it's a lot of material to take in, however, Mary and Susan reiterate material in a way that helps you remember. They share stories and experiences that help you remember. Because of them, I passed the PSI the first time. Highly recommend Plan2Pass, so anyone interested in taking the MD RE class, and passing the PSI Exam. It's well worth the extra drive!

Brenda gives 150% to each class she teaches which translates to the most prepared students in the real estate industry. Brenda is a fabulous mentor/ teacher who is patient, kind, professional & has a wealth of knowledge K. M. Woodell, Realtor

Working full time, I was able to attend the class on weeknights, which was very convenient. Some days I would arrive to class mentally drained but Susan would hold me accountable and remind me why I was taking the class. She answered all of my questions, which was a lot, and made sure I understood a topic before moving on to the next one.

All and all, Plan2Pass lives up to its name. I planned to pass, and I did 😊

Wow, I have known Mary for over 30+ years and she by far is probably the best Instructor ever!! Any student taking her class or any class she's associated with is one fortunate person. Mary is very thorough, gets through to her students and strives in helping all her students to pass!! 😊😊😊
